

REMARKS

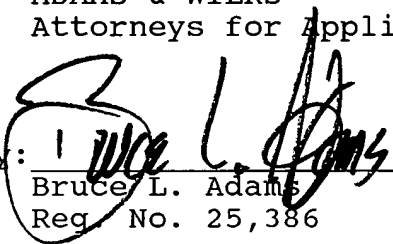

In previously filed response dated May 3, 2005 to the Office Action mailed November 3, 2004, applicants revised the specification to correct informalities, provide antecedent basis for the claim language, conform to the drawing revisions, and to bring it into better conformance with U.S. practice. The title of the invention has been changed to "SEMICONDUCTOR DEVICE AND ELECTRONIC DEVICE EQUIPPED WITH SEMICONDUCTOR DEVICE" to more clearly reflect the invention to which the amended and new claims are directed. A new, more descriptive abstract in compliance with MPEP §608.01(b) has been substituted for the original abstract.

By this supplemental response, the paragraph beginning at line 8 of page 14 has been revised to correct the spelling of "holes."

In view of the foregoing amendments and discussions,
and in view of the amendments and arguments presented in the
May 3, 2005 response, the application is now believed to be in
allowable form. Accordingly, favorable reconsideration and
passage of the application to issue are most respectfully
requested.

Respectfully submitted,
